(PROPOSED 2015 PROMOTIONS CALENDAR)

PROPOSED 2015 PROMOTIONS CALENDAR

Overview:

Building upon the success of the 2013 and 2014 Promotions Calendars we have developed a Promotions Calendar for CY 2015. Similar to the 2013 and 2014 promotions, the 2015 promotions will build on the goals of past promotions and continue to build awareness of how mobile technology can be integrated in direct mail campaigns, as well as highlight new products and other mail techniques that we believe increase the value of mail. Promotions should create excitement about mail, keep mail at the top of marketers' minds, reward innovative customers, show customers we want their business, and encourage others in the mailing industry to provide similar sale initiatives for customers. The 2015 Promotions are generally 3 - 6 months in duration. The general purpose of all promotions is to increase the value of direct mail and retain the volumes of transactional mail; thereby assuring long-term product growth.

- Color/Transpromo Promotion
- 2015 Earned Value Reply Mail Promotion
- Advanced and Emerging Technology Promotion
- Mail Drives Mobile Engagement Promotion

Color Transpromo Promotion

In 2014, the USPS introduced this promotion to encourage mailers of bills and statements to use color messaging in order to create a greater connection to and response from consumers. The USPS intends to continue this approach to grow the value of First-Class Mail and encourage mailers to invest in color print technology. This promotion will provide an upfront postage discount to mailers who use dynamic/variable color print for marketing messages on their bills and statements. The requirements will push mailers to find more advanced and dynamic ways to use color in transactional mail as a revenue opportunity.

NOTE: All exigent surcharges for the new Standard Mail FSS cells were calculated from existing exigent surcharges using the weighted average of the piece origins. For example, the newly created FSS price cell for Commercial Automation Flats FSS Scheme Pallet pieces entered at the DNDC had a total of 3,343,718 pieces in Hybrid Year Q1FY2014-Q4FY2014. 15,983 pieces were previously Automated 3-Digit Flats, 150,207 pieces were previously Automated 5-Digit Flats, and 3,177,528 pieces were previously Carrier Route Flats. The exigent surcharges for these pieces were \$0.011 (3-Digits), \$0.017 (5-Digit), and \$0.011 (Carrier Route). Thus, the weighted average formula is:

$$((15,983 * \$0.011) + (150,207 * \$0.017) + (3,177,528 * \$0.011)) / 3,343,718 = \$0.011$$

*The proposed Exigent surcharge is equal to the Certified Mail surcharge (\$0.15) plus the Restricted Delivery surcharge (\$0.20).

Special Handling		
10 pounds and under	\$0.40	\$0.40 **
Over 10 pounds	\$0.50	\$0.40 **

**Special Handling is changing to a single price regardless of weight, due to the very small percentage (0.7%) of Special Handling volume in the over 10 pound price point the weighted average surcharge still rounded down to \$0.40. Thus, the proposed surcharge is the same as the under 10 pound surcharge of \$0.40. $0.993 \times 0.40 + 0.007 \times 0.50 = 0.40$
